

Who are we?

Our Family Farms of Western Massachusetts is a cooperative of eight Pioneer Valley dairy farms. We are all family owned and operated, and take great pride in the fresh, wholesome product that we produce each and every day.

The cooperative was founded in 1997 as a way for local farmers to earn more for their efforts. Most of our farms have been in our families for many generations. We formed this cooperative to ensure the future of these farms and to keep them viable to continue for countless more generations. This year we are proudly celebrating our 10th anniversary!

What's the difference?

Our milk is produced on small, local, family-run farms located throughout Franklin and Hampshire Counties.

We are committed to:

- **The land**

We manage our farms using sustainable agricultural practices that help protect our natural resources and preserve open space.

- **Our animals**

We care for our animals like they are members of our families, milking and feeding 365 days a year. All of our cows spend a part of their day grazing on lush, green pastures in the Spring, Summer and Fall.

- **Our community**

We produce a fresh, wholesome, nutritious product that does not contain rBST because we care about the health of our families and friends.

Consumers are more aware of where their food comes from than ever before. We are proud to provide you a fresh, local product that is made close enough to you that you can come see it being produced, and see where your food comes from.

By purchasing Our Family Farms milk, you are supporting local farm families and helping to preserve a New England tradition.

Please support your local farmers!

Where to get our milk?

Our Family Farms Milk is for sale in many grocery and local stores throughout Western Massachusetts. Our milk is also starting to be sold in Central and Eastern Mass stores. Many local restaurants and coffee shops also use our milk. If you don't see us at your favorite store, please ask them to carry our brand.

Please contact us for more information or to see our milk in your favorite local store:
